

OCEAN SCIENCES

Seminar Series

OCEAN SCIENCES DEPARTMENT SEMINAR SERIES

<http://oceansci.ucsc.edu/semnews/index.html>

Wednesdays 3:30 p.m. - 5:00 p.m. A-340 Earth & Marine sciences Bldg. (unless otherwise stated)
Winter 2009 — Seminar Coordinator: Andy Moore ammoore@ucsc.edu

*For disability-related accommodations, please contact the department office at 459-4730
or email (os_student@natsci.ucsc.edu)*

For maps: http://www.ucsc.edu/general_info/maps.html

We encourage you to bring your own mug/cup to reduce waste.

January 7, 2009:
NO SEMINAR

January 14, 2009:
Pia Moisander
UCSC

*"Diversity and nutrient limitation of the toxic,
bloom-forming cyanobacterium *Microcystis
aeruginosa* in the Klamath River and San
Francisco Bay estuary"*

January 21, 2009:
Elizabeth North

University of Maryland
Center for Environmental Science
Horn Point Laboratory

*"Making the link between numerical models of
biological-physical interactions and fisheries
management and restoration, 2009: a case study of
oysters in Chesapeake Bay"*

January 28, 2009:
NO SEMINAR

February 4, 2009:
Zack Powell
UC Berkeley

"Modeled Regime Shifts in the North Pacific"

February 11, 2009:

Weiqing Han

Department of Atmospheric and Oceanic Sciences
University of Colorado

*"Surface circulation and dynamics in the
Philippine Archipelago region"*

February 18, 2009:

Kevin Arrigo

Stanford University

"Biogeochemistry of high latitude oceans"

February 25, 2009:

Hey-Jin Kim

MBARI

*"Physical-biological climate changes in the
Southern California Bight"*

March 4, 2009:

Leif Thomas

Stanford University

*"Ocean fronts, 2009: conduits of vertical exchange
between the ocean surface and interior"*

March 11, 2009:

Art Miller

UC San Diego

*"Ocean climate circulation changes associated
with the decline of Steller sea lion populations in
the Gulf of Alaska"*
